

Sensitive Data Classification Tool:

Find and tag sensitive data in your databases

Scan your databases and find and tag fields holding personal data so you can know what data you are processing and where to comply with data protection regulations such as GDPR or CCPA.

This website uses cookies

We use cookies to personalise content and ads, to provide social media features and to analyse our traffic. We also share information about your use of our site with our social media, advertising and analytics partners who may combine it with other information that you've provided to them or that they've collected from your use of their services.
