About

This website uses cookies

We use cookies to personalise content and ads, to provide social media features and to analyse our traffic. We also share information about your use of our site with our social media, advertising and analytics partners who may combine it with other information that you've provided to them or that they've collected from your use of their services.

Don't answer the same questions multiple times

You no longer have to answer the same question about particular data assets to different people. You can simply post a comment or a warning to an asset in your catalog, so everyone in your Community can have easy access to important information.

Improve documentation & trust in your data

Users can not only post comments but also rate data assets on a 5-point scale. This will help you identify areas that need improvement and create to-dos so things actually happen.
